15. COMPUTER PRODUCT ABSTRACT

This system allows the user to dynamically schedule externally, as well as internally, the processing of jobs within an MVS environment. It's primary function is to provide effective computer use with a minimum of manual intervention.

Complete updating and reporting capabilities are available to the user to aid in scheduling and controlling the environment. A simulation reporting process is available that uses the same scheduling algorithm that is used at actual execution time. The system can be operated in batch mode or remotely by terminal utilizing the Time Sharing Option (TSO). ..Software Description: The software is written in the COBOL and Assembly programming languages for implementation on an AMDAHL 5890 computer using the MVS/XA operating system.

16. DATA FILE TECHNICAL DESCRIPTION

Data File produced on;

Source tape is in EBCDIC character set. Character set restricts preparation to 9 track, one-half inch tape only. Identify recording mode by specifying density only. Call NTIS computer Products, if you have any questions.

17. SOFTWARE TECHNICAL DESCRIPTION

Software is written in;

Fortran _____ COBOL ☒ Basic _____ Assembly _____ ☒ Other (Specify) _____

Software requires;

CPR Mr. AMDAHL Model(s) 5890 Operating system(s) MVS/XA

Minimum of _____ K bytes core. The following special features and/or additional requirements in hardware:

None
